

Dear Parents and Family Caregivers,

We read a story about Maggie, who learned about medicine safety rules. She also learned that commercials are not a good place to learn about important things like medicines. Please ask your student about the story and practice this activity together.

"Medicine"
Rhyme/Rap/Cheer

***The right medicine can help;
The wrong medicine can kill.
Never open bottles;
Never touch a pill.***

***Commercials can't tell us
What we need to know;
They're too busy selling
The things that they show.***
